

RODAJA CARGA MEDIA – ACERO INOXIDABLE

Stainless Steel

This medium heavy duty caster series is made to withstand harsh environments and applications that would normally rust and corrode standard zinc plated casters; all metal parts are made entirely out of high quality 304 STAINLESS STEEL. The 31 /32 caster series has the same durable design and features as our popular 27 / 28 series; offering exceptional quality, functionality, value and availability! To offer fast deliveries and competitive prices, we mass produce and stock all the parts required to quickly assemble these high quality casters to your desired specifications. The TS series features a Total-lock brake design providing a way to simultaneously lock both the swivel raceway and the wheel with the depression of a single pedal; making the unit stationary. These series are designed, formed and welded for optimal strength and mobility, to withstand the rigors and abuses typical for medium heavy duty caster applications. Double ball raceways and a 5/8" nut & bolt kingpin are standard features. A huge selection of wash down friendly wheels, bearings, brakes and options are available. Popular applications include; clean rooms, laboratories, medical & hospital facilities, animal cages, pharmaceutical plants, autoclaves, food processing, bakeries, dairy, food service, catering, hospitality, chemical factories, marine environments, fisheries, cruise ships, etc.

- All metal parts made from 304 STAINLESS STEEL. 100% washable.
- Double ball raceways offer smooth swiveling action, strength and long service life.
- TS series features a Total-lock brake design that simultaneously locks the swivel raceway and the wheel.
- Features a wide range of wash down friendly, high temperature and autoclavable wheels.
- Zerk grease fitting in raceway & axle for easy maintenance.
- Standard 5/8" nut & bolt kingpin.
- Precision bearings available for ergonomic mobility.
- NSF Listed.
- Standard stock series = Quick deliveries.
