

RUEDA V-GROOVE DE FIERRO

- Cast iron V-groove wheels are made specifically for use on inverted angle iron track; they can also be used on flat surfaces.
- Strong durable wheels at an economical price.
- Each wheel has a precisely machined 90° V-groove with relief groove which enables load equalization.
- Tensile strength of 30,000 PSI.
- Temperature range: -45° F to 600° F.
